

MANISHA BATHINI

Hyderabad, Telangana | 7013320025 | manishabathini9999@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in Full-Stack Development using React.js, Node.js, JavaScript, Python, and MongoDB. Developed AI-powered web applications with REST APIs, authentication, and responsive interfaces. Passionate about building scalable software solutions and continuously learning new technologies.

SKILLS

Programming Languages: Python, JavaScript
Frontend: React.js, HTML, CSS, Bootstrap
Backend & Database: Node.js, Express.js, MongoDB, SQL, REST APIs
Tools & Platforms: Git, GitHub, VS Code

PROJECTS

AI Mock Interview Platform [Live Demo](#) | [GitHub](#)
Built an AI-powered mock interview platform simulating real technical interviews with AI-generated questions, voice interaction, coding challenges, and personalized feedback.

- Developed a full-stack interview platform with resume-based question generation, AI-driven evaluation, and personalized feedback using Google Gemini API.
- Implemented secure authentication, responsive dashboards, and frontend-backend integration using REST APIs.
- Integrated voice interviews, coding challenges, and interview history features to enhance user experience.
- Automated critical user workflows including login, resume upload, and interview initiation using Selenium WebDriver with Python, improving application reliability and testing efficiency.

Technologies: React.js, Node.js, MongoDB, JavaScript, Python, REST APIs, Google Gemini API, HTML, CSS

EduReach AI Platform [Live Demo](#) | [GitHub](#)
Built an AI-powered college assistance platform helping students access admissions, courses, placements, and campus information through intelligent chat and voice interactions.

- Developed a full-stack MERN application with secure JWT authentication and responsive user interfaces.
- Integrated an Agentic RAG chatbot using Google Gemini API for contextual information retrieval.
- Implemented AI voice counselor functionality for real-time conversational support.
- Designed REST API-based communication between frontend and backend services for efficient data handling.

Technologies: React.js, Node.js, MongoDB, TypeScript, Google Gemini API, JWT, HTML, CSS

EDUCATION

Master of Computer Applications (MCA) Vivekananda PG College, Secunderabad CGPA: 8.5	2023 – 2025
Bachelor of Science – Data Science NSV Degree College, Jagtial CGPA: 8.47	2020 – 2023
Intermediate (XII) Shanthi Junior College, Jagtial 949/1000	2018 – 2020
Secondary School Education (X) Shanti Nikethan High School, Jagtial CGPA: 9.5	2017 – 2018

CERTIFICATIONS

- Programming Foundations with Python – NxtWave
- Full Stack Development – NxtWave
- Workshop on Data Insights with MongoDB – KL University, Hyderabad

LEADERSHIP & ACTIVITIES

- Organized and coordinated a college-level chess competition, managing participant coordination and event execution.
- Participated in an AI-focused hackathon involving collaborative development, rapid prototyping, and problem-solving.
